

H1N1 Immunization Clinic Update in Jefferson County

December 22, 2009

Jefferson County Public Health has expanded eligibility criteria for H1N1 vaccine to include all healthy adults ages 25 – 64 and senior citizens from age 65 years and up. This expansion removes the final restrictions on vaccine use – anyone of any age who wishes to be vaccinated against H1N1 infection is now eligible for the vaccine.

All Providers are now offering unrestricted access to H1N1 vaccine.

| Jefferson County Public Health H1N1 Vaccine Clinic Schedule | | | |
