COVID-19 TESTING OPTIONS FOR

JEFFERSON COUNTY

EXPERIENCING SYMPTOMS OR IN CONTACT WITH A SYMPTOMATIC PERSON?

- For non-urgent questions regarding testing and vaccinations, leave a message for Department of Emergency Management at 360-344-9791 to receive a call back within 24 hours
- Patients who are experiencing urgent symptoms like shortness of breath or chest pain should call 911
- Patients who have had contact with a confirmed COVID-19 positive patient should call Jefferson County Public Health at 360-385-9400*
- Jefferson Healthcare patients who have non-urgent, COVID-like symptoms, should call their primary care clinics
- For patients receiving care out-of-county, they should contact their primary care provider to determine how best to evaluate their health condition
- Patients with COVID-like symptoms who feel they need medical attention can visit the Jefferson Healthcare Express Clinic, open 7 days/week (9am-7pm) or, if they have an emergency health condition, the Jefferson Healthcare ER
- Patients who are seeking COVID testing only should consult the Jefferson County Public Health website https://jeffersoncountypublichealth.org/1429/COVID-19 for an up-to-date listing of testing options including home testing, pharmacy testing, and mail-in lab testing services.

TESTING OPTIONS:

HOME TEST KITS

- **BinaxNow Self-Test**: An antigen self-test available for purchase. Cost $20-$24. The test is performed at home. The kit contains two tests/box for two tests performed within 3 days, 36 hours apart. Available at many locations, including QFC, Safeway, CVS, Sam's Club, Walgreens, and Walmart.
  - Click here to learn more about the test.
  - Click here to learn where to purchase the test.
- **Pixel by LabCorp**: A PCR self-test for home testing. LabCorp will send the test kit to your home via FedEx for a self-test that you ship back to LabCorp. Options for payment include: billing your health insurance; utilizing federal dollars for the uninsured; or pay with credit card. Click on the link to learn more:
