Project Plan			
Title:	Project Lifesaver Grant	Contact:	Detective Brett Anglin
Project Description: Expand and maintain the Project Lifesaver program currently in place to provide the service to new participants at no cost.			
Benefits:	The project lifesaver program provides an invaluable service to people experiencing cognitive disorders such as Alzheimer's, down syndrome, and autism. The program provides participants with a bracelet that emits a radio signal that can assist in locating people who had the propensity to wander. The program also lessens the stress of the constant supervision of loved ones or caregivers by providing an extra level of security. Other devices, such as cell phones or handheld units can be lost or left behind. The Project Lifesaver program provides a wearable device to assist in locating people who wander, provides greater freedom for those that do, and lessen the stress of care to program participants.		
Objectives:	To expand the program by 5 participants by 12-31-2017 at no cost to the participant and maintain and repair when needed the equipment assigned to participants. Maintain a supply for replacement failures of equipment for all program participants		
Deliverables:	JCSO will respond, with the help of Jefferson Search and Rescue, to reports of program participants who have wandered during the duration of the grant using the PLS locator equipment. JCSO will utilize volunteers to administer the program with an average estimate of 336 hours per year. JCSO will utilize employees to coordinate and oversee the program with an hours estimate of 60 hours per year, not including any search activities.		
Success Criteria:	Program participation should be at 14 by 12-31-2017 and all issued equipment shall remain properly maintained and in working order. JCSO shall strive to maintain a 100% success rate in locating those who wander in the program within 1 hour of report.
